About Me

Software Engineering student skilled in Python, Django, React, Linux, and Docker, with hands-on experience developing eCommerce platforms, ToDo applications, and student management systems. Detail-oriented and eager to apply strong full-stack fundamentals in a professional development role.

WORK EXPERIENCE

2023-Present

Self-Directed Software Projects | Mingora

Software Developer (Independent)

- Built and deployed eCommerce platform, ToDo application, and student management system using Python, Django, and React
- Managed version control and collaborative workflows using Git/GitHub
- Practiced containerization and deployment using Docker on Linux environments

PROJECTS

eCommerce Platform | Python, Django, React

- Developed a full-stack online store with product catalog, cart, and order management
- Implemented user authentication and secure checkout flow
